GENERATOR MAINTENANCE PROGRAM

Protect Your Warranty & Ensure Reliable Backup Power

Regular maintenance is required by Generac to keep your warranty active.

Through Always On's maintenance program, our certified technicians handle all the work to ensure your generator remains compliant and outage-ready.

Why customers choose our plans

- Priority service during storms
- Peace of mind during outages
- Reduced risk of expensive repairs
- Trusted certified technicians

WHAT YOUR MAINTENANCE PLAN COVERS

Annual Professional Maintenance*

Mid-Year Performance Check-Ups**

Detailed Documentation for Warranty Records

24/7 Electronic Remote Monitoring

*Required for warranty compliance **Deluxe & Always On Plans

READY TO ENROLL IN PEACE OF MIND?

Call us at (239) 839-3553 or email us at maintenance@alwaysongenerators.com to ensure your generator remains outage-ready.

If you choose not to enroll in a maintenance plan, you'll be responsible for arranging and completing the annual maintenance required to keep your Generac warranty active. This means tracking when service is due, finding a qualified technician each year, and keeping detailed documentation that Generac may request for any warranty claim.
